

BRIDGING MILES THROUGH BORDERLESS RADIOLOGY

INTRODUCTION

Since 2010, The Radiology Group has been leveraging advances in technology to deliver quality radiology services, anywhere and anytime. Backed by an elite team of radiologists adept in areas of sub-specialty, our program collectively reports more than 2000 images a day, over a secure virtual platform. Currently, our parent company Manipal Hospitals has a spread of 33 hospitals in India. Additionally, we have served more than 100 Non-Manipal radiology units across 11 countries, including India, Indonesia, France, Saudi Arabia, Kenya, Ghana, Uganda, Bahrain, United States and United Kingdom.

Being hospital based, our radiologists are in touch with patient care realities and understand the unmet needs of patients and caregivers.

Operations built around
**Quality, Accuracy
& Efficiency.**

CONTACT US

WHY MHRG

- TRUSTED PARTNER
- QUALITY IS OUR MOTTO
- RADIOLOGY EDUCATION
- GOVERNANCE
- STRUCTURED REPORTING

QUALITY IS OUR MOTTO

- Hospital based accredited by NABH
- Quality Assurance program designed based on UK Royal College of Radiologists (RCR) and American College of Radiology (ACR) standards
- Continuous audit, feedback, accountability, and training
- 3rd party audits and clinical management oversight

COLLABORATION WITH NHS, UK FOR 5+ YEARS:

Providing radiology reporting services to the NHS in the UK through a team of GMC registered CCT/CESR radiologists is a wonderful opportunity to make a meaningful impact on healthcare.

CLIENT'S FEEDBACK

"Working with MHRG has been a great experience. Reports are accurate with good TAT and 24/7 coverage. With sub-specialty consultants, reports of the highest quality are delivered, which goes a long way in better patient outcomes. We would like to thank MHRG for their support."

DR. KUSHAGRA AGARWAL
MBBS, MD

"Our group has been using MHRG (priorly CARG) Teleporting for over 13 years, and we are very pleased with the level of service they provide. At first, we were hesitant to use it because we were concerned that the quality of interpretation offered might not be as good. However, our concerns have been completely alleviated as MHRG employs high-quality radiologists who provide extremely accurate and detailed reports.."

DR. KSHITIJ JAIN
MD, FRCR, EDiNR, EDiHNNR, EDiR

- 3-Year National Board Diploma
- 1-Year MHRG Cross-Sectional Fellowship
- FRCR 2B Prep Course

RESEARCH & COLLABORATION

- Imaging Analytics
- Clinical Trial
- Sub Specialty
- Alpha & Beta Testing
- Imaging Advisory

NIGHTHAWK SERVICES

Delivering Unwavering Quality Radiology Services When It's Darkest

- Seamless integration with an existing setup to provide uninterrupted service
- For any emergency case, our certified radiologist can provide initial assessment through a call in less than 30 minutes, and a detailed report within 60 minutes

"I have found Manipal Hospitals Radiology Group to be prompt and accurate in their reporting. Whenever there is a need for discussion of case, the team is easy to contact and sort out any issues. Over the years we have got to know many Radiologists in the team and have benefitted by their expertise."

Dr. Asha Thomas

HIGHLIGHTS OF OUR SERVICES

COMPREHENSIVE COVERAGE

Our certified Radiologists report on subspecialties including Musculoskeletal Imaging | Chest Imaging | Onco-Imaging | Abdominal Imaging | Cardiovascular | Radiology | Pediatrics | Women's Health | Head and Neck Imaging | Mammography | Neuro Imaging
